Communism is Denial
of the Dignity of the Individual

In America this denial is exemplified in the Closed Shop, the Union Shop, the Income Tax, the O. P A., the F. E. P. C., the F. C. C. and the Pendergast machine.

Military Conscription is the ultimate goal of Communism where the dignity of the Individual disappears, making him a slave of the State.

Bob Shuler vs. American Way of Life

March of Russian Communism

By C. LEON de ARYAN

Vitality vs. Corruption of Civilization, is what actually is teaching us a lesson on world-wide scale. When Rome was thoroughly corrupted by its devitalizing civilization that did not follow the lines of Principle but used intellectual cunning to suppress the vital tendencies of individual life-expression, the wild tribes of Teutonic migrants sacked Rome.

Europe, and especially Germany, has been thoroughly corrupted by its own civilization which produced industrial progress at the expense of individual liberty of expression. England and France, Italy, Belgium, Holland and Austria, produced a civilization, based in feudal exploitation of the workers for the profit of the landed nobility, the Junkers in Germany, and their super-lords, the financial-industrial cartels.

Vitality stems from the individual, not from the organization. The corporate state may protect individual vitality or destroy it. In America the Founders voted in favor of strengthening the individual liberty as the source of vitality against encroachment by the organized state. The state is to serve the individual, not to rule him. But, now, that the same virus of feudal land-nobility and its super-lords, the industrial cartels, have taken over control of the U. S. A., our nation, too, has been inoculated with the disease that destroys Europe, thus we, too, are now afraid of the vitality of Russia, hence prepare to destroy it by war.

Russia today represents the same situation as the Teutons vs. decadent Rome. Being least corrupted by civilization there is a wild vitality in the Russian ignorant and ferocious fanaticism of Mongolian hordes from the steppes, which Stalin and the Politburo harness to their ends. Therefore, Europe is as doomed before their onslaught as was Rome, then. America is merely pouring wealth and sacrificing its young manhood in a lost cause. Nature prefers the stupid, wild and primitive people of the steppes to a corrupted civilization. In three generations the Germans demonstrated this. The Kaiser and Hitler literarily ruined the German people by using their docility and industry against themselves; by making regimented slaves of them, thus vitiating the very source of vitality, the individual.

In America this same process is taking place. We are told that to preserve freedom in the world we must corrupt the Foundation upon which the Founders builded our institutions and become regimented slaves of the imperialist, expansionist cartel of Rockefeller-Rothschild interests. We are told that we must become a totalitarian nation to stem the expansion of the Russian totalitarian onslaught. We have failed to learn that, as in Germany, Stalin will destroy his own organization which today has the vitality of natural ignorance, by corrupting it in industrial civilization that enslaves the individual. Wherever the intellect is used to work contrary to nature, the individual is ruined, hence the source of vitality corrupted and the organization collapses of its own rotteness. This is happening to England and all its socialization cannot produce wholesome, self-reliant individuals.

BOB SHULER, RELIGIOUS FAKER AND RACKETEER

The Rev. Robert Shuler, famed fiery pastor of Trinity Methodist Church in Los Angeles, left San Diego an unhappy man, but he left behind a ringing charge that the Southern California-Arizona Methodist Conference was "in the hands of a group which would substitute for the American way of life another of their own design".

Shuler was the spirited leader of a minority faction which fought unsuccessfully to defeat adoption of the "lust for profit" report prepared by the Conference Social Problems Committee. The report, passed by the Conference after lengthy debate, took a stand against the "un-Christian motivation of industry by the lust for profit". The vote was reported to have been 175 to 110.

Terming himself "in full agreement" with Earl Prudden, Vice President of the Ryan Aeronautical Co., who, in a letter to the Conference, asserted that the Church had issued a "condemnation of America's free enterprise system", Shuler said he had fought the report's adoption with all the "resources at my command", but added that he lost because "I just didn't have the necessary backing to win".

"We are in the power of a group of leaders in that Conference," Shuler said, "who are trying to substitute a Socialistic system for our present American way of life. At this time, there are a number of so-called intellectuals all over the Country who are plumbing for the same thing.

"The system of free enterprise, which has made this country the greatest in the universe, would be tossed into the ash can by these brainy people. We have them right in our own group."

Shuler recalled that, when a similar report came before the Conference last year, he "fought it tooth and nail, and we won the fight. It was defeated." He pointed out that the group in favor of such a system has "grown exceedingly strong, and won their point". Still, he indicated, they "only won by a few votes".

"It's the same story in all walks of life," the pastor said, shaking his head. "The little fellow cannot cry out too loud against such tactics. He's afraid. He needs what little security he has for his family, and his salary depends upon the decisions he makes in matters of this kind. It's the same within the Church."

Regardless of the outcome of the voting on the "lust for profit" committee report, Shuler stoutly will stand by his principles in the matter.

"I've got five service stars in my window," he said, "and I intend to fight, and fight hard to keep from losing the things our boys fought to hold for us in World War II."

* * * *

IS SHULER A CHRISTIAN AMERICAN?

In the last paragraph of above quoted news item Shuler gives away his betrayal of the Christ. Like Peter in the courtyard of Caiaphas' palace, in the darkest hour when our faith in the Christ is tested, Shuler, after opposing war at first as the evil it is, turned renegade against his Master and now brags about the five service stars in his window. One cannot serve God and Satan at the same time.

When Jesus was tempted by Satan to enter the Devil's service the Master thundered: "It is written, **thou shalt serve the Lord thy God only!"** But Shuler served the Devil instead and now brags about it.

Shuler explains why the Church is going to hell, why the American way of life is going to hell with the Church. Because men, like Shuler, who give lip-service to the Christ in time of peace act like all the Peters do in time of war: **they reneg on their Christ and enlist in the armies of the murderous Sanhedrin, EVEN BRAG ABOUT IT.**

WHAT IS "AMERICAN WAY OF LIFE"?

Is there anything to brag about the much touted "American Way of Life"? Does it include the Morgenthau Plan and printing of Allied occupation money by Stalin in Germany? Does it include the witch-burning and black slavery of pre-Lincoln days? Or the tenant slavery, military conscription and jailing of Conscientious Objectors of today?

Is the American Way of Life the Wagner Labor Relations Act, the Pendergast machine, the revelations of a cowardly Farley who did not expose the perfidies of FDR at election time because he can be bought and stays bought? Is the American Way of Life the type of public education that makes unthinking idiots of our school children and processes them for compliant cannonfodder under conscription? Is Hollywood with its Jewish perverts and their hangerson part of the American Way of Life?

Or is the American Way of Life an Ideal, a vision which guided the Aryan spirit to a new adventure, like the Ideal of the Christ, that has never been practiced in whole but only in part by very few. Yet, that little is so potent that it created the miracle to which the propagandists allude, covering with its mantle all the crimes perpetrated on the one-third ill-housed, ill-clothed, ill-nourished, who have never been anything else than economic slaves of the exploiter-aristocracy, the Tories of the American Way of Life!

Why don't you return letters addressed to Damon Runyon Cancer Fund to senders, marked: "LOTTERY, FRAUDULENT"?

You deny the use of the mails for neighborhood theater advertisements of bank-nights, etc.

Why do you arbitrarily hound Naturopaths, Chiropractors, Health Food dispensers, sellers of medicinal herbs, even interfer with the Freedom of Press of Health magazines that compete with the American Medical Association racket, yet you never denied the use of the mails to the March of Dimes fraud?!

Are you in the pay of or political servitude to Winchell, Fishbein and Rockefeller?

Why don't you deny the use of the mails to the Alka-Seltzer and Vitamin rackets?

Your bureau is conducted in the most capricious, arbitrary and vicious manner to destroy the business and invade the rights of small people who compete with national trusts and racketeers.

The Lack of Common Sense

Today we witness the fact that German-Americans are sending to their relatives in the Fatherland millions of food and clothing packages every month, cutting into their savings and earnings and doing it steadily.

Yet, the same people who are so eager to help their starving relatives will not take political action, which is their right, their prvilege, yea their duty, as American citizens to insure that the President, the Congress, the State Department enable Germany to take care of its own needs and that the occupation forces don't throw Germans out of their own homes into the cold and starvation.

Kurt Mertig dares, at the risk of jail and even his life, to lead in such political action and only a very small fraction of the monies expended for packages could change the whole picture, thru a change in politics at Washington.

Boys and girls of German parentage dared risk their lives to invade and defeat the Nazi regime, yet they dare not gather in New York City openly to insist that the humanitarian slogans and promises of FDR, not to destroy the German people upon surrender, be lived up to! Why?

Is it easier to kill and be a savage than it is to think and build up where one helped destroy? Is it easier to enlist and risk one's life in an army of destruction than of construction, if the goal is peace on earth, good will to man? Why do these boys and girls, men and women, find the daring to risk their lives in savagery but not in rebuilding?

And the average American, too, is burdened down with taxes to pay for destruction past and future, yet how much effort does he and she give to the Thought of Peace, even though all wars are fought under pretext of Peace as the goal?!

Why do people risk their lives to kill and violate the Principle of Life, while pretending to do it for the sake of insuring Peace on earth?

Why do the same men and women not risk as much, not expend as much effort, **to obey in practice the commands of the Prince of Peace and give their lives, their fortunes in His divine Service?**

How could the intellect that utilizes all forces of Nature and all inventions of men, to kill and destroy, insure Peace on earth, be worthy of leadership, while that Infinite Love which produced the universes and all races of men is ignored?

As a matter of practical investment should one not rather risk his life, his substance, by investing it to respond to the thought of Him who made us all, different as we are individually, and racially, than to trust in the leadership of exploiting murderers to establish security and peace on earth by such perverse covenants based in force and arbitrariness, like the United Nations and the fear of the A-bomb?

Yet, when THE BROOM, week in and week out, exposes the falsity of the international promises, do the American people rally to follow the Truth and exercise their common sense?

Why do they choose to follow Judas-goats?!

Joan McBride Defense Fund

Dear Mr. Bowles:

Enclosed find cashier's check for $150, contributed by Joan's family members in Los Angeles. Joan's brother, Mr. Redmer, phoned me from Detroit that you had to have it immediately.

Kindly let me know of the progress in the appeal bond petition.

Sincerely, C. LEON de ARYAN.

RESPECT THE GENEVA CONVENTION

While the bad precedent has been introduced by FDR and Stalin of returning to slave labor as a punishment source for reparations, the misery caused thereby cannot be eradicated merely by sending food and clothing parcels to Europe. Yet, a small portion of the funds employed would defray the cost of the appeal to the Supreme Court, if needs be, for a ruling in the Joan McBride case, whether the U. S. A. is bound to adhere to the provisions of the Geneva Convention in matters of war prisoners. We need the money. Send your contributions to THE BROOM, East San Diego, California.

Shall German Sufferers Find No Christian Samaritans?

Dear Mr. de Aryan:

We were notified today, just prior to our meeting in the Union Church—we had paid the rent in advance a week ago—that due to pressure brought upon them we were not allowed to meet there, although our two meetings held there were orderly in every respect.

If I were not the only defender of real humanity in Central Europe—on account of which the "Non-Sectarian" Anti-Nazi League called me at their recent annual dinner "the most noxious person in New York"—I might be inclined to give up in disgust, principally on account of the **degrading indifference of my countrymen** toward their suffering kinfolk in Europe.

But I find it impossible to sleep at night thinking that every day thousands of the total of twenty-seven millions of German men, wo-

Protest Against the Conspiracy of Silence

What is sauce for the goose is not recognized as sauce for the gander here in New York!

While the Citizens' Protective League and the German-American Republican League have been the first, and for many months the only groups, who since two years have come out for an early fair and just peace for Central Europe, and who since four months have conducted weekly open forums:

"Why the Morgenthau Plan should be abolished and a separate just and fair Peace be concluded immediately with Germany and Austria!"

unfounded calumnies that measure of inhibition out of all proportion to the possible scope of the Leagues' influence have been recklessly set in motion for the suppressing of the Leagues' meetings.

While full page advertisements of the **United Jewish Appeal** for its this year's goal of **$170,000,000.**—for help to the Jews of Europe appear almost every day in New York's leading dailies, and while even Christians are coerced to subscribe sums of $10,000 to $25,000—(among them Anheuser Bush Brewery of St. Louis, Mo., and Schlitz Brewery of Milwaukee, Wis.) **not a cent is collected for the 65,000,000 German men, women and children starving to death since two years under that infernally conceived Morgenthau Plan.**

And because the Citizens' Protective League and the German-American Republican League are systematically appealing since several months to 15,000 sympathizers all over the United States, but principally in Greater New York, for **assistance in breaking this conspiracy of silence imposed on humanity by the most inhuman of all victors,** these weekly meetings have now been successively stopped in four different meeting places during the last two months.

There is no doubt that humanitarian endeavors of the Citizens' Protective League and the German-American Republican League have attracted a degree of unfriendly scrutiny, by interests opposed to American Democracy (such as preached by Thomas Jefferson), that in reality it confers a very high compliment upon the intentions and performances of the two groups of which I am chairman since twelve years.

The followers of Communism appeal to democratic practices and to principles of free speech and free assembly for the purpose of spreading their peculiar doctrines and programs, but once they have obtained power they abolish all such guarantees of freedom with cynical hypocrisy, and in view of these constant interferences with the constitutional rights of American Christians, it is therefore to be hoped that every loyal American citizen who may acquire knowledge of this abominable persecution which is now being practiced apparently without official let or hindrance in New York City against the Citizens' Protective League and the German-American Republican League, will not keep silent about this matter; but will protest to such extent as may lie within his civic power, and will lose no time in affiliating with one of the two groups and thus help to extend their beneficially intended influence.

The meetings of the two Leagues have always been conducted with meticulous respect for the requirements of the law and for the maintenance of order, as an essential part of the Leagues' desires to spread economic and political truth in an atmosphere from which unreasoning prejudices of creed and race have been cleared away.

NATIONAL MADHOUSE

By MADISON MONROE

WASHINGTON,—**Charles Kimball Fletcher,** 44 (R) defeated Izac for the 23rd (San Diego) California District for Congress which helped to swell the Republican majority in the House which is generally assumed to be point gained. So far he has not made much noise, but not much noise is expected of a freshman in that body. In fact there are numerous unwritten laws to prevent a newcomer from shooting off prematurely. He was educated partly in England which may to some extent explain his affirmation vote for the Greco-Turkish handout. This vote will likely weigh heavily against him for renomination and reelection unless he does some outstanding positive things to offset it. He's a member of the Banking and Currency Committee.

Chet Holfield, (D) is serving his fifth year in Congress from the 19th (Los Angeles) Dist. of California. He has always been a slavish New Dealer and is usually conspicuous by his absence from sessions. The other day he was denied the privileges of the floor for a day because, in a debate with Rankin, Miss., he referred contemptuously to the Committee on Un-American Activites of which Rankin is a member. The voters of the 19th District should have no trouble in finding someone better to represent them.

BUSY BARNEY BARUCH

Busy Barney Baruch, Boss of the Boodle Bag, Elder Profiteer, Advisor to War-Mongers and Master of Blah-Blah has just put over another publicity stunt. Pictures in the papers show him, not working the park-bench hokum, but comfortably seated in a chair in the War College flanked by Secretary of State Marshall and Secretary of War Patterson fawning upon him as if at last he had really done something for his country besides getting it into war and then reaping the customary profits. But no, that wasn't it. The occasion was the placing of a bronze bust on a high pedestal. And whose bust? Why, Busy Barney's of course, Publicity Hound Extraordinary. Why the hell he should have a fancy bust in the War College is hard to figure out. Maybe some day when the Revolution comes, some of our disabled veterans will go up there and kick it around. In the meantime he seems to stand high with the Truman gang. This "adviser to presidents" advised Wilson into war and Roosevelt into war and this latest bit of evidence would indicate that he is advising Truman in his "Doctrine" of meddling in the affairs of Europe and throwing tax-payers' money around while Barney and his pals get their generous cut.

THE EYE GLASS RACKET

The optical racket is one of the most greedy nationwide rackets in the U. S. today. It is organized to collect outrageous fees for simple services, get high prices for equipment that cost almost nothing to produce in these modern days. There are plenty of skillful optometrists and competent opticians who are willing to serve and sell at reasonable prices, but these are opposed and frustrated in every possible way by the combine. For instance, the combine has just tried to push a bill thru the Illinois legislature making it illegal to advertise prices on optical services and goods. What do you think of that? And the bill was beaten by a very slim margin. It is the same kind of tactics used by the medical profession to hamstring drugless healers. Rather should there be laws to protect the public and prosecute some of these monopolistic hi-jackers.

Delavan J. Dickson, City Administrative Officer, reported plans for meter installation had been tabled for further study.

What Father's Day Brought Me

David's graduation exercises fell on Saturday before Father's Day-Sunday. Since some of my wealthier contributors to the Deficit Fund of THE BROOM have started to retrench, I have to work extra to replenish it and decided not to attend David's graduation, as important an event as it is in the boy's life. David, having been in jail for conscience's sake, realizes why at times we have to forego sentiment and live up to duty.

Gladys was in Los Angeles, though, and so our family was going to be represented by proxy, while Fred had left San Diego early Saturday morning to join Norma (David's girl) at the Coliseum in Exposition Park. At noon on Saturday, Gladys called me long distance to say she was going to stay over-night since Marcella, David's god-mother, was giving a little celebration party at her house for David, his friends and family.

It so happened that I had seen the last customer on my program and was now free for the weekend. So I took a Western Airliner and arrived, just in time for the party, with the children as they entered Marcella's house. I was dead tired, but recovered after a few hours listening to the soft singing of Fred, Norma, David, with Marcella at the piano. As usual I spoke to the assembled family on matters most pressing for the moment: in this case, on Inner Studies, since the children are of marriageable age and sex instructions are very insufficient, as well as untrue, even where given by medical "experts".

After a good night's rest, Gladys and I went to Dr. Melby's office for our Tox-Eliminator treatment. It was the best one yet received. Taking an inner bath and exercise of the bowel, is as necessary as is taking an outer bath and morning calisthenics. Enlightened hygiene advises washing out your mouth and the hind-end of the alimentary canal needs it even more than the front-end. True, our bodies are so constructed that they are to cleanse themselves without mechanical aids of water-baths, but since we don't live naturally but are crowded in cities like sardines and don't exercise the bodies as we should, in agricultural and horticultural pursuits, for which the bodies are mechanically organized, the cleansing process is partially paralyzed in the best of us, so that the Tox-Eliminator becomes as much a necessity as washing one's face and mouth. Of course, making it habitual is an evil, but aiding nature at intervals is good sense and practice. Those who are perfect in elimination, of course, don't need it, but I yet have to meet that individual.

WHERE TO FIND GOD

After our treatment, Dr. Melby invited us to visit some friends of his who had come to pick us up. They had heard of and read my writings and wanted to make my personal acquaintance. At their home, among others, I was introduced to a young Hollywood-bred woman of exceptional qualities, who had become a vegetarian and was the mother of a small child. During the conversation it became apparent that the young woman would love to know more about God and how to find Him. Being educated, thru the acquaintance with Dr. Melby, it was not hard to strike the right key-note, but she brought it home to me that she was only one of the millions of young people who have been so horridly neglected in true education, so that God to them is pure hearsay and not a daily experience. Our public schools are atheistic, so are our churches, for any half-truth is worse than pure ignorance, because an ignorant child, having a blank mind on a subject, can be taught intelligently, while a mind filled with half-truths of things that are not so, balks at giving up its old superstitions and opposes the entrance of pure truth.

Realizing that the condition of Sibyl is typical of the youth of today, I found myself playing "daddy" to her on Father's Day, teaching her what she should have learned at father's and mother's knees, when she was a tot, as my children have learned. And so it was a marvelous treat to face that lovely woman-child and call out in her intelligence the attention which will lead her to find God in her own heart and thus make her free to live her own life according to Father's Plan for us.

"You have been told that God is LOVE. That's where you'll find him. In the LOVE in your heart. Watch the feelings you have for your baby. That wonderful feeling of pure desire to serve and give it the best you have, that impulse **is the nature of God in you.** Fix your attention on it that you may distinguish it from all other impulses. The purity of this LOVE reflects the THOUGHT of God. There is where you'll find Him."

"It would be the greatest day of my life."

"Yes, child, it is. To complement this effort, since your profile shows a marvelous expectancy of the left or heart-side, while the right side shows positiveness, learn to follow pure Principle and Nobility to its ultimate activity and never give up. That gives your mind a good discipline, education and useful, practical training to obey and love God. For God is revealed as much in pure Intelligence as in pure Love, the kind you feel for your child. By combining Intelligence with Love and Practice, adherence to the Ideal in daily life, you call out the dormant cells in your brain, nerves and ganglia, into corresponding activity to respond to the image and likeness of God, so that then, you represent in the flesh the Will of the Father in Heaven. Health is harmony with divine plan. It also enhances beauty and you will detest smearing your mouth with red goo. The natural color is more lovely."

"Nobody ever discussed these matters with me in this light."

"You are not the only one, Sibyl. But as you see a new truth, learn to **breathe gently and deeply, while you contemplate it.** This, really, is THE secret of bringing it into materialization. Breath supplies more oxygen to the blood. As you see a new vision, even for a flash, another brain-cell has been awakened into activity. By taking a sweet, long, deep breath, you supply that brain-cell with an extra dose of blood that feeds it, just as one waters a freshly planted seed. Love the new revelation, breathe on it, **thank God** for it, and slowly, but surely, your inner perception grows until you discover the Father in your own heart. For God is always with us, like radio; only we must learn just how to tune in and WHERE."

—oOo—

A few days ago a good-looking girl got on our bus. She had pretty, naturally red lips, but she was going downtown and had to make up. So she smeared her lips with red goo they didn't need at all, changing a picture into a caricature, and making them lips we'd rather miss than kiss.

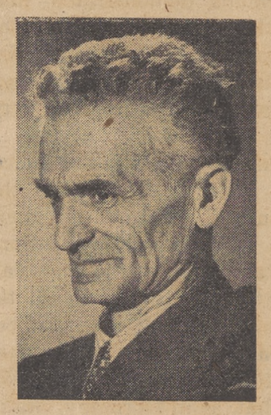
World Menace of Mongrelism

By C. LEON de ARYAN

(Continued from last week)

In the divine creative ORDER we find the physical kingdom, vegetable, animal and Christ kingdom. Infusoria produce the plant-life that finds unfoldment in the animal body until the divine genius of man turns the animal organism into the image and likeness of the Master. The Aryan tops evolution today. Tomorrow it will be the **transparent race** that will manifest the last rung in creation on earth where the Kingdom of God will be in earth expressed as it is in the THOUGHT of our Father.



C. Leon de Aryan

The scale of evolution reveals: Mineral, plant, animal, man. Yet, there are border-types. When is a function mere **crystallization,** which means native to the mineral kingdom and when is it vegetable? Similarly, border-types exist between plant and animal functions and lastly, the animal-human border-type. When are we animals and when do we become human?

To be human is to be divine, conscious of God, our Father, as Jesus exemplified it, so that we may **contact and speak with God** as we speak with our earthly parents. THEN is when we are human. Up to then we yet are animals.

Examination shows that each realm, or kingdom, is marked by certain faculties non-existant in the lower kingdom, while all the lower functions are improved upon and present in the higher kingdoms. Electricity functions etherically, minerally, in the plant, the animal and human bodies. Crystallization and aggroupation of its kind of matter is natural in the mineral, plant, animal and human realms. Self-propulsion, migration is the prerogative of animal and man. Feeling, intellect, functions in man and in animal. And now we come to classifications within the animal and human-animal realms.

Everything in creation is planned and con-

trolled by Intelligences **outside,** or should we say, by off-stage managers. The star-dust and the etheric forces that finally form a sun-planetary system, are set into motion and materialization by the **universal engineers.** They produce the universes assigned to them as their jobs. While they continue on their posts, as soon as crystallization is opportune, a new group of **promptors** induce matter to crystallize, forming the mineral kingdom in all its varieties. Then a third group, while the other two stay on the job, enters additionally to induce vibration which produces the first formation of leaves, stem and root, just as, for example, frost will form a pattern of leaves and flowers on the window pane. Into this, the first **algea,** the plant builders attract the **first divine Atom** to operate. This living atom, in contrast to the mere material atom produced by the activities and inducements of the Universal Engineers, descends into the first algea by way of the sun-rays. As soon as a sun-ray strikes the first algea, immediately **Life,** in the shape of a tiny dot, an infusorial jellyfish, appears. Thus, animal and plant-life appear **simultaneously** and are inter-dependent. This tiny, living dot, the divine atom, moves through the inner vesicles of the plant, produces **chlorophyll,** colors the leaves and stem, and soon there are baby atoms alive. The dot produced off-spring and now they all work together to build up and beautify the plant, producing all the varieties and finally the giant trees which cover the planet. All this is done under the supervision of the off-stage directors in charge of plant production. One may call them Angels or by any other name.

When the infusoria, or divine life-atoms, have learned how to produce multiple plant-organism, the **intelligence in them is awakened** and they are directed by a fourth group of Creators, who join the preceding directors, to produce multicellular animal organism. The planetary waters and atmosphere, then, abounds in the varieties of jelly-fish, mollusk, vertebrates, reptiles, fish, fowl and finally mammals.

With the advent of the mammals, a new group of directors is added. They supervise the unfoldment of the animal organic functions into semi-human combinations. Thus, the Negro race appears. Evolves into the brown race, the olive, dusk, yellow and finally white race. Each of them has its own group-directors who by telepathy direct the instincts of the semi-human, semi-animal types in their unfoldment. God, to them, is an **outside being above them.** This is the inside picture until the white man appears. (To Be Concluded)

Walter Hepner, Exponent of American Education for Military Slavery

Germany has the material fixtures of culture but has failed to develop in her people the spiritual leavening to make the outward trappings effective in daily life, **Dr. Walter Hepner, President of San Diego State College,** told the Cultural Activities Committee of the San Diego Chamber of Commerce at the San Diego Club.

The Chamber Committee met jointly with the Optimist Club, with representatives of the County Ministerial Association and 24 women's clubs as guests.

"There is in German no word for community as we know it," Hepner said. "The individual has no awareness of others, and no conception of the responsibility of the citizen in making sure that every youngster is raised in a manner that will provide the experience necessary for community betterment." He returned recently from an **Army educational assignment** in Germany.

* * * *

Revision of the German educational system described as "perfect for the training of puppets", must be accomplished before United States occupational forces can be withdrawn, **Dr. Walter R. Hepner, State College President** told University Club members.

"It is essential that we develop a generation of Germans capable of understanding democracy," said Dr. Hepner. He recently returned from a three-month assignment as a member of a 13-man committee on education curriculum with the American Office of Military Government in Germany.

"The educational system instituted by the Nazis was deliberately designed to create two distinct classes," he explained. "Only 10 percent of the students was permitted to attend tuitioned secondary schools, while 90 percent advanced to the eighth grade and then were apprenticed to a trade.

"I sincerely believe that the German educational system was an important factor in causing World War II, because German youth was saturated with class feeling and hatred."

* * * *

WHAT DOES "GEMEINDE" MEAN?

Before Hepner shoots off his mouth again he should study the German language. The word for community, and all it implies, in German is: **Gemeinde.** It is one of the oldest words in the language and **its spirit of responsibility of the individual** to his neighbors and fellow citizens lived among Teutonic tribes long before there was an England and America. Out of that root sprang the Magna Charta and our Bill of Rights.

Hepner conveniently takes the Nazi epoch out of the life of Teutonic history and makes **THAT THE ABHORRENT NORM** of German example. One could as well take Al Capone, FDR, the Hollywood perverts, Bernard Baruch, the Pendergast machine, Walter Hepner and Gen. Marshall and claim they are representative of the history and achievements of the U. S. A. as a whole. Are they?

Mind you, Hepner, a political, educational prostitute who hired out to process the youth for service in the Sanhedrin conquest of the world, went to Germany on an **Army mission** and throws stones. Could there be anything more contemptible than the army discipline of Gen. Marshall who failed to phone to avert the Pearl Harbor disaster? Speak of Nazi education! FDR wanted war so Marshall helped kill the U. S. Navy.

"Ike"—Dwight D. Eisenhower, having demonstrated how to break Germany and enthrone Russia in Europe, naturally, becomes the perfect type of man who should preside over Columbia University, the Newdeal roost of intellectual perverts.

Where to Look for Success

A CHAT WITH DAVID

"Daddy," said David, "I filled out application blanks today for a job as chemical engineer, but they have a question there concerning my draft status. Of course, I wrote 'Conscientious Objector', but the very fact that they asked this question warns me I won't be desirable to them. It is very discouraging after graduating 'Magna cum Laude' to find that one's qualifications are not judged on technical merits but on willingness to apply oneself to mass-murder."

"Well, David, you had to come down to earth after your exaltation when you received that diploma. You see, most Americans are savages yet. They are not Aryans but Caucasianoids, a mixture of white with other races, white predominant in color but not in mores. It's just as bad in its place as Mongoloids or Negroids. Hence they lay great stock by willingness to murder when Bernard Baruch so decrees."

"But that's why it is so discouraging to me."

"That's nothing, David. It's just the beginning and if it gets you down so soon, what will happen when you meet worse. Your covenant in Life is not with prospective employers who consider you an industrial prostitute whose mind and body they hire. Our covenant is with Our Lord God MAZDA. We who are Aryan in deed, as well as word and thought; do not look for sustenance to mortal flesh and minds. Focus your attention continually on the living flame in your own heart whence comes enlightment, life and power to you as an individual lightbearer on earth. There is, whence come our directions, instructions and means of accomplishment. If you rely on mortal minds your heart will be broken. Not even the leadership at the Temple in Los Angeles is reliable. Every human is limited. Hence, Jesus taught us that we have no earthly parent on whom we may rely, but the Father who is in heaven. That's why I went out of my way to teach you to find the Principle that governs Life and follow it, rather than my opinions. Now live like a Son of Mazda, never give up and when at a loss turn to HIM, you'll find the answer."

A-Bomb Menace to our Coasts

Dear Friend:

Please find 50c enclosed for five copies of June 9 issues.

Kullgren seems right in saying we should leave the coast soon.

How much time do you think we can stay here on the coast and still have time to move elsewhere? Have aged father to look out for and at present it's impossible to move.

Respectfully, C. W.

* * * *

My dear friend C. W.:

I am looking at these "dangers to our coast" from a diametrically opposite position taken by all who advise leaving the coast regions, Atlantic and Pacific, because of impending disaster. The Father who looks after the sparrow, looks after me, too, and how much more than a sparrow am I, are you? "Seek ye, THEREFORE, **FIRST the Kingdom of God and its Righteousness** and ALL these things will be added unto you."

Now that is my position and my outlook upon the future. What would it profit me to save my life, win more time in this world, if I failed to achieve the **main purpose on earth:** TO BE **RULED** by God only! Not by fear.

Those who are so fearful of what they should eat and drink, where to live and how to save their precious hides . . . . they lose their very life-time,—they really lose their lives, in vain striving. But to discover God in your own heart and then live in this divine realm where God governs, advises, there is where you get the answers you are asking me.

True, that we are looking forward to the day when A-bombs will be loosed upon the coast and radio-poisoned fog will destroy the coast cities. But this is as possible near every lake and every stream. I have had bullets whistle past me, yet I am here, because in the eyes of the Lord my place is here.

As to the prophecies of sinking coasts into the oceans, sure, this will be. But when? Next year? Five years? A hundred or a thousand? I leave this to the Lord, too. If HE needs me, He'll look after me and warn me, or guide me by "accident" just five inches beyond the danger line. Such things are happening to me all the time.

We either strive to comply with PRINCIPLE and live in intellectual integrity, doing what we know to be right, hourly and daily, or else we distrust the **unfailing RULE of God** that does not allow the innocent to suffer with the guilty, all popular mis-statement of this rule notwithstanding. Being consciously in the SERVICE and having dedicated my life to it, I follow DUTY and am not worried or concerned about my personal safety. When the time comes I shall be well advised and led. And even if ten thousands were to fall by my side, I still would attend to my duty as I saw it.

Naturally, common sense tells us not to live in valleys below water dams that will tumble and flood the stream beds. There are sensible precautions we all can take. But, as in your case, father cannot be moved, so why move? Life is fleeting in this world, at its best. What matters it when or where we die, since die we must, but HOW we die, that's all that counts.

Sincerely, KOSTI.

Consistency in thought is the gist of right thinking, of good reasoning; and consistency in action is the gist of right conduct. All reasoning, all morality works down to that test; and all deflection from reasonableness and righteousness may be expressed in terms of inconsistency. Now, conduct depends finally upon thought, and it seems clear that, though a habit of reasoning on non-moral problems will not necessarily develop scrupulous thinking on moral problems, the habit of aiming at consistency in one's reasoning in general will help one to check inconsistency in one's practice when one is concerned to do so.

Economic Equity

By Chas. H. Ingersoll
(THE ORIGINAL $ WATCH MAKER)

THIS IS THE ONLY FREEDOM TO FIGHT FOR

NEW YORK, — Free Industry, Free Labor, free commerce, free society. These are the Freedoms that count. And none can exist without FREE ECONOMICS of political Economy. And there we can boost the next printing of this great work with a suggestion of brevity in definitions:—

Chas. H. Ingersoll

Political Economy is sometimes called Social Science. It is the Natural Law relating to Production and Division of Wealth. And since production is so well taken care of by all our fully matured physical sciences and 'Economics' being a relatively new science, it is used mostly in **perfecting the distribution of wealth.**

This is where we are most terribly in default because the exclusive two producers, labor and capital, who should get it all only get about half the wealth they produce: the other half going directly and indirectly, to taxes and monopoly.

And there also is why the **leaders don't know how to lead:** before they find out how this 'direct and indirect' game is played they have to get a few lessons in economics which is the neglected and dismal science colleges sidestep.

Natural Resources, now monopolized because untaxed, are the natural place for ALL taxes. But when we insanely put them on products of labor or industry we kill both the producers and cut production in half by doubling the prices.

POWERFUL DRIVES AT DEMOCRACY

Now comes the bold and fearless San Diego BROOM in the person of its clever Washington Adams, to let the poor old institution-for-all-the-people down the banks. I must first try and guess whether the motive is not purely PARTISAN. These are Republican Days. And that kind of (party) Democracy has never before had its present low-rating.

Adams keeps this let-down alive two weeks, thru two columns, and I've got to go thru all again to see if I've missed anything relating to economics—or anything more than our bedraggled partisanship—or at best our badly damaged and carelessly slung together Constitution.

I find as expected that he only skims the surface in arraying all the Presidents who had denied the practicality of democracy for the eventual political or administrative action: and repeating our constitutional evasion of the question and the GOP 'safeguarding' it.

And also as expected he fails to even ask how the **rights to life, liberty and happiness** are to be sustained if no more protection is to be given them in our present Constitution and Bill of Rights. Adams shows clearly as do all such critics, an inability to distinguish between PEOPLE and mob or rabble. And between politics and principle.

WILL THIS BRING US TO THE REAL ISSUE?

If monopoly and Communism, between which mortal enemies we are being crushed, are seeing hand-writing as it's time they did, the drive on democracy would be a very natural and maybe effective defense to their combined and separate status quos.

And its power would depend on how many innocent and ignorant constitutionalists were available to them. The stake in this battle-royal will be the Earth Itself: nothing can increase or diminish that importance. Everywhere, just as in war, vital resources promptly show up as the cause. It is constantly visible as the economic cause of strife.

Here, Adams, to bolster his case of anti-democracy, tells of Tory hesitation on various points vital to them: — even the vote they thought should not be granted to non-landowners. This is the basis of the Nock charge of land-speculator-majority of Constitution signers.

So far as these two exhibits go they are rather frankly an exhibition of fear for the **institution of land monopoly** and a determination to use the only possible defense or delay, when the logic and justice of the present system of reversed economics is once seriously challenged. Democracy in fact is the only menace of Monopoly.

Editor's Note: Ingersoll represents the Henry George school. He reasons that as long as the Constitution allows taxation of personal effort and property the Bill of Rights is a hollow pretense. He is right.

Adams is a Republican "Tory" who worships "divine right" to private control of land, i.e., natural resources, according to Ingersoll's reasoning. Taxing labor and its products is Toryism.

"The art of drug therapeutics is a combination of science, luck and humbug."—W. J. Robinson, M. D.

Re: Avak and Epilepsy

Boqueron, Panama.

Dear Mr. de Aryan:

In connection with your article in your recent May issue of THE BROOM dwelling on the bearded man with curative powers, can offer the following.

His epileptic patient will not get well. The connective tissue of the nervous system in such a case is somewhere weak. When there is a high point of concentration throughout this network the weak part causes a short circuit which affects the seat of consciousness, the brain. Thought, food, and environment laws are one. To disconnect the three admits of failure. You cannot use healing powers as a cure-all without the patient conforming with all moral, physical, and even economic laws in his daily living. You cannot suspend the law of cause and effect and expect a complete cure.

The healing powers which this bearded youth may exhibit is only an output without the intake of the patient carefully guarded in his daily living for the long term. This intake must be of a low concentration, the fats, starches, proteins, carefully weighed so that the gram intake does not highly irritate the weakest portion of the nerve network. And the kind of fats, starches, proteins, must be right. Any slight increase above 30 or 40 grams a meal may cause a collapse of the weakest link. And then the blackout in the seat of consciousness.

In fasting we always find the nerves least affected, that is if the stage of fasting reaches starvation. Once the nerves have degenerated the task is difficult and we find many nature curists not knowing how to handle the disease. Even normal people suffer from defective nourishment of the nerves and brain. The constant pulling of gravity and the daily bad living habits put more nourishment in the lower regions. A fine practice to overcome this is placing one's feet on the wall with the upper spine resting on the back of the neck. To hold this position for about half an hour daily will flush the upper regions with lots of good blood. It often prevents wrinkles, gray hair and fits.

I am afraid the patient of the bearded man will have to carefully watch his diet for the rest of his days, bring his weight down if it is too high, so as to avoid an accumulation which is beyond the powers in the weakest part of the nerve network, otherwise the fits will come, frequent or rarely, depending upon the condition it must cope with.

In this realm of ours the initiated know there is an eternal unbreakable link which operates the righteous principles. The conditions of disease, confusion, come when there is not harmony with this chain. Those who conform have the task of making the dishonorable respect the rights of the human race. In disease we must connect the stray ones onto the chain, and so it is morally and economically. You will not have perfect health, paradise, until man fulfills his mission. Until then there will be hell on earth. Those who conform with the righteous forces carry on the work in this eternal chain.

We are operating ourselves on low grade energy. Hell is the result. Human atomic energy is paradise, our fulfillment of the mission which is in eternal movement. To attain health one must strive in that direction.

With kindest regards, I remain,

Very sincerely yours,

JACOB GOLDWASSER

"Friends of Democracy" Face Trial for Conspiracy

Notorious Smear Outfit Charged with Plotting to Create a State Within a State, Espionage, Character Assassination—Birkhead Up

NEW YORK, June 20 (Special).—The People of the State of New York vs. the Friends of Democracy, Inc., came up before Magistrate Ramsgate today in the E. 57th St. court for a preliminary hearing, and a trial date was set for July 7th, probably before Magistrate Horn or Fagan.

Under a warrant or complaint sworn out by Lawyer Hallam M. Richardson, the Friends of Democracy are charged with being a conspiratorial outfit, organized for the purpose of creating a state within a state, of usurping the powers of the police, of hiring spies and investigators, of conducting campaigns of smear and terror.

Leon M. Birkhead, head of the Friends, looked a picture of gloom and dejection as he sat in court today, nor did any of his associates present, who are accused with him as conspirators, look any more cheerful.

They have travelled rough shod over right-wing Americans for years, and reflect at last that it is a "long lane that has no turning".

Birkhead himself was recently turned over to the grand jury by Magistrate Horn for indictment for criminal libel, on the complaint of Ex-Alderman Lambert Fairchild, after about a week's preliminary trial in court.

The coming trial of the Friends of Democracy for conspiracy is expected to be protracted and reveal an amazing network of intrigue and undemocratic actions and activities.

Behind the scenes conduct of such Birkhead agents as Akhassian-Derounian, who wrote "Under Cover" and "The Plotters" under the pen name of John Roy Carlson, is expected to be revealed in full in the court room.

SANCTUARY VS. "POST"

The libel case of Col. Eugene N. Sanctuary vs. the N. Y. "Post" will run over into next week.

The colonel and his attorney, Henry H. Klein, were subjected to such a hostile court atmosphere the first day of the trial testimony that a lady spectator remarked to one of the "Post's" attorneys, outside the court room:

"I wish that every Christian in New York could have been here today, in order to see just how persecution in a court room can work."

The next day there was a much less hostile atmosphere in court. But the best opinion seems to be that Justice Pecora, who, before his appointment, was a noted New Dealer, will decide for the "Post", and Attorney Klein is painstakingly building up a court record for a successful appeal.

Derounian Carlson appeared in court one day with a small camera, and, on being detected by Col. Sanctuary, was put out of the court room.

Olney Moves to Fire Brink

LOS ANGELES,—That Referee in Federal Bankruptcy Court Benno M. Brink is not conducting his office honestly and impartially, but gives preference to a personal friend and client of his, is only one of the many charges of abuse of his juridical duties, levelled by Warren Olney III, an attorney whom Brink has disqualified from appearing in his court on the grounds that Olney violated the rules of ethical conduct of the California Bar association. In other words, Brink inferred that Olney employed shyster tactics which Brink could not tolerate "without subjecting his court to grave criticism by the Bar".

In return for charging Olney with unethical conduct that calls for investigation by the proper committee of the Bar, whether Olney should be in consequence disbarred, Olney accuses, in his motion to the U. S. District Court, the referee with violation of the Bankruptcy statutes on eleven counts. Among them, that Brink withheld information concerning certain assets and contracts of Arthur L. Bell's organizations, with third parties, from the Federal Trustees in Bankruptcy, hence proving his unfitness to preside and demands that Brink be therefore fired and a Special Master be appointed in his stead.

ARTHUR L. BELL

According to notice of hearing of the motion, Judge William C. Mathes is to decide the merits of Olney's charges.

Brink disqualified Olney upon objections of his former associates in the rape of Christ's Church of the Golden Rule: Lee Combs and James E. Ludlam, Esqs., who represented "dissenters" of the Church, charging Bell with fraud in acquiring properties of the plaintiffs for his own use under the mantle of religious piety and purpose. Brink permitted Olney, then special attorney general under Bob Kenny, to enter the case and at the expense of the taxpayers of California, without authority of law, produce "evidence" that could not stand up in any honest court of law, and "convict" Bell of "fraud" on the grounds that Bell refused to disclose the source of funds received and their use, which were donated to him personally by members and friends of the Church. Since that conviction in Brink's court, the Appellate Court in San Francisco ruled against Brink in the matter of legality of Brink's ruling that Bell was bound to reveal private and personal transactions.

When Olney lost his job, after Fred Howser succeeded Kenney as attorney general of California, he "acquired" by hook and by crook five "clients" whom he bound by contract to give up their own interests and serve as Olney's guinea pigs in the attempt of destroying every asset of the Church, which, of course, would jeopardize not only the properties of the Church but wipe out the possibility of ever repaying Lee Combs' and James E. Ludlam's clients. Hence, these two attorneys, joined by Judge John Preston for the "loyal members" of the Church, charged Olney with violation of the ethics of the Bar and were upheld by Brink.

Evidently, the thieves and persecutors of the Church are now falling out among themselves over the division of the loot and are incidentally exposing also the illegal practices indulged in by the Federal District Court itself and its Referee, to harrass Bell for opposing the wholesale murder and world-exploitation by a bunch of satanic minds, the Sanhedrin headed by Baruch and the Rockefeller oil crowd.

Q. E. D.

COMMUNIST PARTY LINE

Sir:

To fight for the Constitution today is to find yourself called a Communist—witness Wallace, Pepper, Franklin D. Roosevelt, his wife and numerous others. But rather, the question is: Why, since 1787 when that Preamble was written, has our United States not achieved those ideals spoken of in the Constitution's Preamble? How could the late President Roosevelt honestly and correctly, a century and a half later, speak of a nation of which one-third was ill-housed, ill-clothed and ill-fed?

Communists have never been in power anywhere in these United States. Ill-housing, ill-clothing and feeding are the trusts' and capitalism's rewards to the people in the richest country in the world. That is why the Communists seek ownership by the people. And that is why the trusts and their apologists seek to outlaw the Communist Party. It is that simple.

Let Us Curb the Veto . . . . Truman Doctrine "U-Turned" . . . . Coddling Socialism . . . . Infamous "FEPC" . . . . Brickner Condemns Mongrelism

By WASHINGTON ADAMS

WASHINGTON, June 20 (Special)—For the second time in American history, President Truman has vetoed a tax-reduction bill, thus thwarting the wishes of the people and an overwhelming majority of our national legislature.

This despotic (although legal) act should awaken our Congress and cause it to propose a long-needed AMENDMENT TO OUR CONSTITUTION, CURBING THE VETO!

Section 1—Let Congress have power to OVERRIDE a veto by a vote of 55%—NOT two-thirds.

Section 2—Let all votes on a veto be by SECRET BALLOT.

When our Constitution was adopted, the Fathers copied the veto clause from England. But, although still having the veto power, NO KING OF ENGLAND from that day to this has ever vetoed an act of Parliament!

No prime minister anywhere has a veto power. Even the House of Lords can hold up a Commons bill for only two years.

North Carolina—in some ways the most advanced State in our Union—allows its **governor NO VETO**, and RESTRICTS HIM TO **ONE TERM ONLY.**

A SECRET BALLOT in overriding a Presidential veto would prevent a power-Mad President from visiting reprisals upon opponents within his own party.

SECRETARY MARSHALL at Harvard University on June 5 made a "U-TURN" of the Truman doctrine—without consulting the Senate or the people.

The Marshall Plan (what "planners" these Newdeal despots are!) invites any and all European countries—whether Red or White—to come to America and help themselves to our money and resources, for European rehabilitation. No wonder Truman opposes tax-reduction.

As The Chicago Tribune so ably commented on the 16th: **"THIS REDUCED THE TRUMAN DOCTRINE TO IDIOCY."**

For the essence of the Truman plan was to support ANTI-Communist States. Now Marshall reverses his field and says we will help the Communist-totalitarian despotisms equally with the others!

And "old-man-o'-the-sea" Vandenberg, who has been a New Deal foreign-policy SYCOPHANT in all its devious turnings, did his customary about-face, and again emerges as a lightning CHAMELEON and New Deal supporter.

I have usually referred to Van as an APOSTATE. The Chicago Tribune calls him an EX-REPUBLICAN and an EX-AMERICAN! . . . The Tribune thinks he speaks for Wall Streeters, who expect to make millions out of this sacking of our national treasury!

CODDLING SOCIALISM

Jules Dubois, Chicago Tribune correspondent in Latin America, wrote on June 16 that our eccentric State Department is giving "moral, political and cultural encouragement to socialists in Latin America", since they have split with the Communists, with whom they have been allies for 20 years!

"There is no difference in the domestic policies of both parties," said Dubois. "FULL STATE SOCIALIZATION IS THEIR GOAL!"

The greatest argument against SOCIALISM has not been stressed in America and England. It is this:

FOR A GOVERNMENT TO OWN THE GREAT INDUSTRIES MAKES IT TOO STRONG. Too rich a government invariably means TYRANNY AND DESPOTISM—always has and always will. It is nature's law.

All great political scientists agree upon this point.

"FEPC" IDIOCY

Hearings in Senator Donnell's sub-committee are still going on regarding Bill S. 984 for a national "FEPC".

This is the crackpot bill of the Senatorial crank, Irving Ives of New York. Against this vicious bill there are many sound arguments. Here is one of the soundest:

The right of a worker to select his employment and bargain with his employer is as old as human freedom. Under this proposed law the white American native worker has the cards STACKED AGAINST HIM.

A corresponding right upon the part of the employer has always existed — THE RIGHT TO SELECT HIS WORKERS.

It is his latter right especially that the REDS and their stupid dupes, like Ives, Morse and Chavez, desire to DESTROY. (None of these fanatics ever gave employment to anyone in their lives, except stenographers).

They are DEMAGOGUES, and they want to buy the votes of Negroes and Russian Reds, who have powerful lobbies, by enacting a law which compels **discrimination against AMERICAN WHITES,** who are without lobbies to speak in their behalf.

I believe that the two age-old rights referred to are protected by the 9th and 10th Amendments in the "Bill of Rights".

I do not believe that Congress has any power to take away these most sacred rights, and that "FEPC" legislation is wholly UNCONSTITUTIONAL. But we cannot always depend upon the present U. S. Supreme Court to protect us.

Write your own representatives and Senators, and also Senator Allen J. Ellender of Louisiana, who is the American representative on the sub-committee.

BRICKNER CONDEMNS MONGRELISM

If my readers who are interested in the Jewish question will tune in on the "Message of Israel" series over the American Broadcasting Co. at 9 a.m., E. S. T., Sundays, they will hear some very interesting talks by Rabbi Brickner of Cleveland.

On the 7th he answered the question, **"Are the Jews a Race?"** with a "NO".

Last Sunday, the 14th, he spoke on **"Mixed Marriages"** of Jews and Gentiles, where each partner keeps his own religion, and condemned it. He also mildly condemned **"Inter-Marriage"**, where one partner takes the religion of the other, although he admitted he had found instances where it worked out very well.

The rabbi knew of an ex-Christian woman, married to a Jew, who became a more loyal and faithful Jew than her husband.

He thought in general "mixed-marriages" hurt the solidarity of the family, upon which our civilization depends; upset and injured the psychology of the children.

Rabbi Brickner, obviously a brilliant man and a thinker, took the exactly OPPOSITE view of Zangwill's "Melting Pot".

Brickner saw life as a hill up which we all climb toward God, and each group did best when marrying within its own kind, rather than "crossing" over. He could have quoted from his own Bible, **"Thou shalt NOT MINGLE thy seed with a diverse kind."** He advocated mutal helpfulness instead of assimilation.

But the most striking thing that the rabbi said was this: As for OPPOSITES ATTRACTING, it was so much nonsense. THE ONLY THING OPPOSITE THAT SHOULD ATTRACT ONE IS THE 'OPPOSITE SEX'!

I believe you can obtain copies of Dr. Brickner's addresses by writing to the "Message of Israel", care of your local ABC station or "WJZ" in New York 20, N. Y.

I imagine the Red Jews will call Dr. Brickner a FASCIST!

FATHER TERMINIELLO APOLOGIZED

After having demanded that FDR, Gen. Marshall and their associate war criminals be hanged on the same charges that Nazis and Japs were hanged, Father Terminiello was disrobed by his Bishop and went on his own. He joined Gerald L. K. Smith's rabble rousing forays and discovered the lack of integrity thereof, got sick of it and decided to apologize and rejoin his bishop. The Bishop accepted the apology and Terminiello learned by experience that neither his Church nor Gerald Smith follow Principle to the logical end. Having to make a living, though, Terminiello returned to his erstwhile racket in preference.
